A manufacturer built on precision, consistency and finish.

J&R Apparel is a premium apparel manufacturing house based in New Delhi, serving corporate companies, startups, fashion brands, hotels, schools, colleges and restaurants. We handle the full cycle in house — fabric sourcing, cutting, stitching, printing, embroidery, quality control and packing.

Established in 2024 and MSME certified, we work at a 50-piece minimum so growing brands can start small and scale, while holding the same construction standards across every order. Full customisation is available on fabric, fit, colour, branding and packaging.
